STAINLESS STEEL FASTENERS

Stainless steel is the only true assurance for protection against our corrosive coastline, fall out and emissions from industrial stacks, marine and other chemically polluted environments.

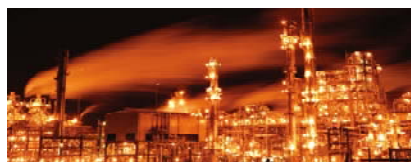

Buildex® Stainless steel screws conform to the Australian standard AS3566.2.

The Buildex® range of Stainless steel Tek® has led the way again, with the innovation of robotically welding either a carbon steel or Martensitic drill tips to its 300 series (A2) Tek®.

All Stainless Tek® have a top coat of Ruspert to give an extra layer of protection and lubrication to enhance their drill performance.
